This Office Action is in response to the papers filed on October 8, 2003.

The abstract of the disclosure is objected to because of its references to Fig. 1. Correction is required (i.e., a new Abstract with all references to Fig. 1 deleted is required). See MPEP § 608.01(b).

Independent claim 1 is objected to. First, claim 1's "at the gate contact of the second semiconductor region" (paragraph (b)) lacks antecedent basis and should read "at a gate contact of the second semiconductor region." Furthermore, claim 1's "the at least second semiconductor region" (two occurrences, one in paragraph (c) and the other in paragraph (d)) should more clearly read "the at least one second semiconductor region." Correction is required.

Claims 2-18 depend on independent claim 1 and are thus similarly objected to.

Claim 4 is further objected to for reciting "preferably in finger-like fashion." Correction is required (i.e., "preferably" must be deleted or the "finger-like fashion" limitation must be presented in another claim dependent on claim 4).

Claim 5 is further objected to because "the gate terminal" lacks antecedent basis and should read "the drive terminal."

Claim 7 is further objected to for reciting "preferably equidistantly." Correction is required (i.e., "preferably" must be deleted or the "equidistantly" limitation must be presented in another claim dependent on claim 7).

Claim 15 is further objected to in reciting "preferably between half the value of said gate resistor and the value of said gate resistor." Correction is required (i.e., "preferably" must be deleted or the "between half the value of said gate resistor and the

Art Unit: 2822

value of said gate resistor" limitation must be presented in another claim dependent on claim 15).

Claims 1-18 are otherwise apparently allowable.

United States Patent Application Publication 2004/0113179 (Pfirsch et al.) is related to this application.

The prior art of record does not disclose or suggest the allowable field-effect power transistor taken as a whole.

This application is apparently in condition for allowance except for the above formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
